THE BULLS BOOST THE MARKET FROM ONE TO TWO POINTS.

hange in speculation this morning; in fact, the order of things was completely re versed. For some days Reading and Western Union have been the bulwarks hat held up the res of the list, while the shorts pounded the life out of the Gould stocks and a few others. To-day West-ern Union and Read-ing seemed to be aban-

doned to the tenof the bears, while ari Pacific showed more resistance and a number of other active shares moved p along with it. H. K. Enos sold about ooo Western Union at an early hour, and his proved to be a staggerer until he ex-lained that the sale was on an order and hat he was still a believer in the stock. All the little traders scampered out as fast a they could, only to hurry back later when hey saw that Western Union was disposed

as they could, only to hurry back later when they saw that Western Union was disposed to move up again.

The bears made Rock Island one of their objective points and sold it down to 109. They are afraid to sell too much of it, however, as it is difficult to borrow any considerable amounts. Mr. Cable, the President of the company, paid his compliments to the bears this morning by saying that "if they insist upon shorting Rock Island at present prices he believed some of them would wear Nankeen trousers this winter."

The Rock Island has many stanch friends who are such firm believers in the property that they would probably take all the stock the shorts cared to sell. Among these friends are such men as David Dows, Flower, Porter, and, of course, Cable himself.

There was good buying of Northwest on Vice-President Sykes's assertion that the company carned over 1 per cent, on the stock in September. It will be remembered that it was recently asserted in the most persistent manner that the earnings that month showed a heavy falling off from those of 1886.

Even Reading recovered and during the afternoon the bulls took hold of the whole market with a will, lifting prices ½ to 2 points above the final figures of yesterday.

The shorts covered freely on despatches from the West that grain and flour rates from 8t, Paul and Minneapolis to Chicago will be advanced from 7½ to 10 cents per 100 lbs. on the 15th inst, and on a telegram from Philadelphia quoting Vice-President Oakes, of the Northern Pacific, to the following effect:

Our business is immense and we could use 4,006 more cars to-day if we could get them.

Our business is immense and we could use 966 more cars to-day if we could get them, The Werra arrived to-day with £19,700, consigned to L. Van Hoffman & Co. This brings the total since July 23 up to \$27,200.

Foreign Exchange was reduced to 4.82 and Exports of produce and miscellaneous goods from New York for the week ending to-day, \$6,026,425.

Tips From "The Evening World's" Ticker. Washington E. Connor, who went away from town last week, is expected to return to his office morrow.

A good many people downtown were inclined to think that Western Union had hedged in its new schedule of rates which went into effect to-day on the heads-I-win-talls-yon-lose principle. Another addition to the daily literature of Wall street made its appearance to-day. It is called wealth, and, according to its announcement, is de-voted to finance, speculation and investment.

Christiansen Badly Hurt.

Amandus Christiansen, the Swedish sailor who says that he was hit by a man named John, is unconscious at Chambers Street Hospital. The contusion on his head is about one and a quarter inches in diameter. Christiansen was taken from South street to a Brooklyn hospital Saturday night after being hurt. Sunday he came to Lewis & Ryder's shipping-office, 57 West street, at 4 o'clock, accompanied by the mate of his ship. He seemed somewhat under the indusince of liquor. Mr. Ryder summoned an ambulance and sent him to Chambers Street Hospital at 7 o'clock.

Comptroller Leew Sucs for Libel. Comptroller Edward V. Loew to-day began a libel suit in the Supreme Court against the New York Tinues Association and George Jones for \$100,000 damages. The alleged libellous articles complained of were published in the Tines on Oct. 12 and 14. In them were statements to the effect that Mr. Loew, at the desire of the political leaders of the State, had let the contract for constructing section 19 of the new aqueduct to O'Brien & Clark despite the fact that several lower bids had been put in. Evarts, Choate & Beamah are counsel for Mr. Loew.

Among the book and job compositors still on strike there was a feeling to-day of discomfort. The contention existing most prominently just now is concerning the office of Mr. Polhemus. A committee waited on Mr. Polhemus last night but could reach no satisfactory conclusion. On the part of the strikers it was maintained that all the men must return to work and the three foremen be reinstated in their positions. This Mr. Polhemus would not accede to. cede to.
